**MUSIC @ ST JOHN'S (MESSAGE FROM CHAS)**

We are experimenting with a new way of leading & organising our sung worship and, to this end, Fran is currently stepping aside. Please give her a well-deserved time of refreshment; but please do ask any of our musicians/singers to include any song or hymn which is important to you.

**MESSAGE FROM YOUR WARDENS**

You may have noticed that approximately 60 chairs have been marked in various ways. 30 of these chairs containing woodworm will be disposed of in due course and the remaining chairs treated. Would congregation please help by pointing out to your wardens if or when they notice any attacks on unmarked chairs so that we can keep on top of this problem.

**Did you know...**

**Rose Lodge** is a home in Torbay which provides holistic care and structured support in a God-centred environment to enable distressed young women to experience recovery and transformation. Rose Lodge offers a residential programme for 18-30 year olds, of 24hr care in a family home environment, addressing the root causes of depression, eating disorders, self-harming etc, thereby breaking the cycle of destruction within which they exist and will inevitably pass on to their children. They are looking for support and volunteers. Chas has details.

**There is an updated CHURCH TELEPHONE LIST at the back of church, please help yourself and recycle your old one.**
